

Make your own Inspirational Poster

You will need

- Old magazines, newspapers or packaging
- Scissors
- Paper or card (plain or coloured)
- Glue

Method

1. Start by cutting out the titles, headlines and other large print from old magazines, newspapers or packaging.
2. Choose different colours, sizes and fonts – get as many letters as you can!
3. Before starting to make your poster, you will need to find an inspirational quote. You could take one from the Bible or ask a family member.
4. Now practice your layout – take some time to arrange your letters in a way that makes your quote look great. You could make your quote into a circle, or a zig-zag – it's your choice.
5. Once you are happy with your design, glue each letter in place.

Your inspirational poster is complete!
