

# Potato Print Letters

## You will need:

- Several large potatoes (you could try other vegetables too!)
- Biscuit cutters
- Pumpkin carving tools or similar
- Paint and paper

*If you don't have any biscuit cutters you can use a sharp knife – but take care.*

## Method:

- Cut the potato in half.
- Pat dry the cut ends with kitchen paper.
- Press your biscuit cutter into the cut end of one of the potato halves.
- Carefully use your pumpkin carving tools to cut into the potato and around the cutter to create a stamp.

*Go slowly, as it is easy to cut too far!*

- Remove the cutter from the potato.

Have fun printing!
